Pocket | Single door | Installation

su controtelaio modello ECLISSE SYNTESIS® e/o similare
with counterframe model ECLISSE SYNTESIS® or similar

Installazione perno a pavimento / Floor pivot installation	pag.	2.1.103
Installazione anta / Door installation	pag.	2.1.105
Regolazione anta / Door adjustment	pag.	2.1.112
Regolazione serratura / Lock adjustment	pag.	2.1.116

ATTENZIONE

I disegni si riferiscono al montaggio dell'anta con controtelaio mod. ECLISSE® SYNTESIS.

Nel caso si utilizzino controtelai (senza stipite) di marca differente, per il montaggio dei carrelli attenersi alle istruzioni fornite dal produttore.

ATTENTION

The drawings refer to the assembly of the door with counterframe model ECLISSE® SYNTESIS.

In case you use counterframes (with no jamb) of a different brand, please, use the assembly instructions of their producer for the assembly of the chariots.

Quota/
Level

1. Togliere il lamierino parapolvere dal montante del cassone.
1. Remove protection strips from the vertical frame parts.

2. Togliere il lamierino parapolvere dal traverso del cassone.
2. Remove the protective strip from the horizontal frame part.

3. Il perno deve essere posizionato in centro all'anta e a 10 mm dal bordo del cassone./ 4. Forare nei punti prestabiliti.
 3. The floor pivot has to be placed in the middle of the door and at 30mm from the rear edge/ 4. Drill the floor in predetermined points.

5. Fissare i perni a pavimento.
 5. Fix the pivots to the floor.

6. Inserire gli spazzolini parapolvere nelle apposite sedi.
6. Insert dust strips into the frame as shown.

7. Togliere il tappo copri carrello da entrambi i lati dell'anta.
7. Remove the cover of the carriages from both sides of door.

8

8. Avvitare i blocchi quadri ai carrelli.
8. Screw the square blocks to the carriages.

9

9. Inclinare l'anta, appoggiare il tondino a terra ed appoggiarsi sopra l'anta per permettere lo scorrimento. Introdurre il quadro di blocco posteriore nella staffa fino al punto da consentire l'avvitamento del bullone. / 9. Rest the door on the bar on the floor allowing it to tilt. Insert the rear of the block into the fitting to allow the bolt to be screwed.

10. Infilare tra pannello porta e traversa la piastrina di lamiera. / 11. Avvitare il quadro posteriore fino a posizionare l'anta alla giusta altezza.
 10. Insert the metal plate between the door and the crossbeam. / 11. Screw the rear block until the door achieves the correct height.

12. Chiudere il grano di sicurezza presente nel blocco quadro posteriore. / 13. Sfilare la piastrina di lamiera.
 12. Close the security screw inside the rear square block. / 13. Pull the metal plate.

14. Svitare la vite già inserita nell'anta, spingere l'anta fino al punto in cui il quadro posteriore si blocca ed avvitare la vite. **ATTENZIONE:** Inserire solo la vite fornita, NON utilizzare gli altri due fori presenti sul blocco quadro.

14. Remove the screw already inserted in the door. Push the door until it locks into place and reinsert the screw. **CAUTION:** Only use the screw provided. Ensure only the correct hole is in use leaving other two holes clear.

15. Infilare l'anta sul perno a pavimento e farla scorrere nel cassone.
 15. Place the door on the floor pivot and allow to slide into the counterframe.

16. Infilare blocco quadro anteriore.
 16. Insert the front square block.

17. Posizionare la piastrina di lamiera come riscontro ed avvitare il blocco quadro anteriore fino a posizionare l'anta alla giusta altezza.
 17. Place the metal plate provided and screw the front square block until the door is at the desired height.

18. Dopo aver terminato le regolazioni e verificato il perfetto scorrimento dell'anta, bloccare le staffe anteriori nella posizione indicata.
 18. After having finished the adjustments and having checked the perfect door sliding, block the front brackets in the marked position.

19. Posizionare la mostrina copri carrello sulla parte anteriore dell'anta.
19. Place the cover on the front side of the door.

Posizionare il fermo anta posteriore in base alla distanza [d]. Seguire i passaggi n° 20 e 21.
 Position the rear stop according to the final position (d). Follow the steps n° 20 and 21.

20

20. Tramite un utensile, tirare il fermo anta (già inserito nel binario) fino ad agganciarlo sull'anta.
 20. Using a tool, draw the rear stop already placed in the track until it hooks onto the door.

21

21. Impostare la distanza voluta [d] e successivamente fissare il fermo anta con le viti in dotazione.
 21. Set the desired distance [d] and then attach the door stop with the supplied screws.

22

22. Togliere le protezioni parapolvere dal montante di battuta.
 22. Remove protective strips from the vertical part of the frame.

23

23. Svitare e muovere il fermo anta anteriore per regolare la battuta dell'anta.
 23. Loosen the screw and move the front door stop into desired position.

24

24. Inserire guarnizioni nelle apposite sedi sul traverso.
 24. Insert the seals into the correct positions on the horizontal element.

25. Dipingere le parti a vista del telaio della stessa tinta della parete.
25. Paint the visible parts of the frame in the same colour of the wall.

26. Inserire le guarnizioni di battuta nelle apposite sedi sul montante di battuta.
26. Insert the seals into the correct positions on the vertical element

27. Chiudere la serratura e misurare altezza del gancio da pavimento [X]. / 28. Centrare il riscontro, posizionarlo alla stessa misura rilevata sul gancio e segnare i punti da forare.
 27. With the door open, close the lock and measure the height from the floor (x) / 28. Centre the locking plate at the same height measured from the floor as the hook and mark the fixing position.

29. Forare nei punti prestabiliti. Il foro centrale va allargato verso il basso di 1 cm.
 29. Drill the marked points for the screws and enlarge centre hole downwards by 1cm.

30. Fissare il riscontro per serratura con viti autofilettanti.
30. Secure the locking plate with self tapping screws.
