Spanner

1. Posizione del perno a pavimento rispetto al cassone. / 1. Floor pivot position with respect to the door's box.

2. Fissare il perno guida a pavimento. / 2. Place the guiding floor pivot.

3. Inclinare il carrellino e infilarlo nell'apposita guida. / 3. Tilt the carriage and place it in its own guide.

4. Posizionare il blocco porta. / 4. Place the door stop.

5. Posizionare i montanti dei profili interni dello stipite [9] sul cassone. / 5. Place the vertical elements of the jamb profiles [9] on the subframe.
6. Forare nei punti prestabiliti con punta Ø3 mm. / 6. Drill in the established points with drill bit Ø3 mm

7. Togliere i profili interni dello stipite [9] dal cassone.

7. Remove the internal jamb profiles [9] from the subframe.

8. Infilare l'anta sul perno a pavimento.

8. Insert the door on the floor pivot.

9. Appendere l'anta al primo carrello.

9. Hang the door on the first carriage.

10. Appendere l'anta al secondo carrello.

10. Hang the door on the second carriage.

ATTENZIONE: Ripetere i passaggi da n° 8 a n° 10 per montare la seconda anta.

ATTENTION: Repeat steps from n° 8 to n° 10 to mount the second door.

11. Inserire gli spazzolini parapolvere sui montanti e sul traverso del profilo interno stipite [9].

11. Insert the brushes anti dust on the vertical elements and on the beam of the internal jamb profile [9]

12. Montare i pettini di fissaggio [4] sulla parte superiore dei profili interni dello stipite [9], tramite viti M4x30 TC.
 12. Assemble the fixing combs [4] on the upper part of the internal jamb profiles [9] by means of screws M4x30 TC.

13. Montare simmetricamente i profili interni stipite [9] sul cassone [10].
 13. Assemble symmetrically the internal jamb profiles [9] on the subframe [10].

14. Fissare i profili interni stipite sul cassone tramite viti autofilettanti Ø3,9x30.

14. Fix the internal profiles jamb on the subframe by means of tapping screws Ø3,9x30.

15. Regolare i dadi di bloccaggio per ottenere un perfetto scorrimento dell'anta.

15. Regulate the locking nuts in order to achieve a perfect door sliding.

16. ATTENZIONE: La misura del traverso deve essere uguale a quella (x) rilevata.

16. ATTENTION: the size of the beam must be the same as the one (x) previously measured.

ATTENZIONE: Verificare che i traversi [9] siano montati a filo con pettine fissaggio stipite [4].

ATTENTION: check that the beams [9] are assembled flush with the fixing jamb comb [4].

17a/17b. Montare simmetricamente i due traversi interni stipite sui pettini di fissaggio, e bloccarli con viti TS M4x30.
17a/17b. Assemble symmetrically the two beams inside the jamb on the fixing combs and block them with screws TS M4X30.

18. Svitare e muovere il fermo anta anteriore per regolare la battuta dell'anta.

18. Loosen the screw and move the front door stop into desired position.

19. Infilare la guarnizione laterale sullo stipite.

19. Insert the lateral seal on the jamb.

20. Prendere il traverso dello stipite, inserire le squadrette serrando l'eccentrico [5.1] e avvitare le viti [5.2].

20. Take the frame of the jamb and insert the brackets closing the eccentric part [5.1] and tighten the screws [5.2]

21. Unire ad incastro i componenti dello stipite. Chiudere l'eccentrico della squadretta [3.1] e avvitare le viti nella squadretta [3.2].

21. Join the jamb parts. Close the eccentric part of the square [3.1] and tighten the screws in the square [3.2].

22. Posizionare gli stipiti esterni.

22. Place the external jambs.

Posizione dello stipite esterno
External jamb's position.
