SHERAZADE SWING PLAIN

Sherazade Swing Plain è una porta singola a battente prodotta su misura, che si distingue per la grande pulizia formale e la cura dei dettagli, in cui il telaio dell'anta è a raso muro. Un vetro temperato monolitico da 6 mm. o stratificato da 3+3 mm. è inserito tramite una guarnizione nel telaio d'alluminio, fornito in cinque diverse finiture. I vetri, disponibili in una vastissima gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI ENI 2150 (ad eccezione di 533. armato). Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze. È possibile montare tre tipi di serratura (senza blocco, con cilindro, con nottolino) e scegliere tra maniglia o pomolo, che sono forniti nella stessa finitura del telaio. Le cerniere sono a perno regolabili. Il controtelaio in alluminio decapato, invisibile quando la porta è chiusa, è disponibile sia per pareti cementizie sia in cartongesso e può essere verniciato direttamente con la pitturazione delle pareti. L'anta singola è disponibile anche nella versione filo soffitto. L'intero gruppo maniglia è trattato con una speciale vernice igienizzante (testata secondo la norma ISO 22196:2011) che, contrastando la proliferazione batterica, garantisce la massima igiene e pulizia delle superfici.

Sherazade Swing Plain is a single custom made swing door with a concealed frame, which stands out for its clean lines and attention to detail, whose door panel fits flush to the wall. The monolithic 6 mm. or laminated 3+3 mm. thick tempered glass is inserted by means of a seal in the aluminium frame, which is supplied in five different finishes. The glasses are available in a wide range of finishes and they are certified according to the safety regulations ANSI Z97.1 and UNI ENI 2150 (with the exception of 533. armato). Panels in stoneware and in wood with different finishes and essences are available too. It is possible to assemble three kinds of lock (without block, with cylinder, with revolving plug) and choose between handle or knob and they are supplied in the same finish of the frame. The hinges are with adjustable pivot. The pickled aluminium subframe, invisible when the door is closed, is available for both cement and plasterboard walls and it can be varnished during the painting of the walls. The single swing door is also available fitted flush to the ceiling. The entire handle set is treated with a special sanitizing varnish (tested according to ISO 22196: 2011) which, by counteracting bacterial overgrowth, guarantees maximum hygiene and cleanliness of the surfaces.
